

# Hui Wang

646-206-5709 | [huiwang339@gmail.com](mailto:huiwang339@gmail.com) | [GitHub](#) | [Medium](#) |

Full stack web developer with a passion for building applications that make our lives easier. Merging a background in health care with experience in Ruby on Rails and JavaScript based programming, I want to help enable companies to build apps take care of their customers in the best way possible.

## TECHNICAL PROJECTS

**Parking App** - [Github: https://github.com/mypwhas9letters/parking-front](https://github.com/mypwhas9letters/parking-front) | [Demo](#)

*Rent out your driveway*

Developed an app where users can list or rent a driveway.

Utilized Redux and React to develop a single page application to improve user experience.

Integrated Google's Maps and Calendar api to help organize reservations.

Created the backend using Rails and Postgres as a database.

**Posigram** - [Github: https://github.com/mypwhas9letters/posigram](https://github.com/mypwhas9letters/posigram) | [Demo](#)

*Photo sharing application where only positive comments are allowed*

Used React to develop a single page photos sharing application.

Implemented a text analysis api to filter out comments with negative sentiment.

Included authorization and authentication to increase security.

**Flatiron Mingle** - [Github: https://github.com/mypwhas9letters/Flatiron-Mingle-FrontEnd](https://github.com/mypwhas9letters/Flatiron-Mingle-FrontEnd) | [Demo](#)

*Dating app*

Created a dating app using vanilla Javascript.

Designed the questions form using HTML and CSS.

Allow the users to sort result of matches based on their preferences.

## TECHNICAL SKILLS

Ruby, Rails, SQL, Javascript, React, Redux, HTML, CSS
